## THE CRIMINAL

Photograph the offender's features in your mind. Without obviously staring, memorize the criminal's features starting from the top of the head, moving down in a systematic manner.

Concentrate on prominent details not easily changed such as age, facial configuration, eye color, skin tone, height and weight. Remember unusual marks and speech mannerisms. Try to associate the type of face with someone you are reminded of such as a friend, relative or celebrity. Gauge height in relation to some fixed object nearby such as a tree limb or doorway.
